

# Mobile Sales

Increase your productivity already by placing orders.

Have your sales personnel and representatives accept orders on location - at the customer's, at a fair or in the show rooms - with the current data directly via IT.

Mobile order placement for the textile business — fast, easy, reliable

## MobileSales improves your order acquisition!

### THE SOLUTION

As a professional fashion distributor you know the problem: your field personnel always needs current collection data and availability information. At the time orders are placed you don't know about current order amounts and trends yet.

Completing the order immediately with the customer — that's what MobileSales offers you.

Modern input units with intelligent software supply your sales personnel with information about availability and sales charts while talking to the customer.

If a certain product is not available, the customer can be offered an alternative immediately. This enables you to comply with your customer's demands almost perfectly and to maximize the order volume.

MobileSales on a tablet pc with barcode scanner.

The finished order is transferred to your merchandise planning and control system using modern communication technology - anytime, anywhere! MobileSales provides you with an improved order acquisition solution that replaces pen and paper as well as alternative offline solutions.

### YOUR ADVANTAGES

#### Order placement at the customer's

Have your sales personnel place and complete orders already during the sales talk.

#### Increase sales by specific advisory

Your field staff can include availability and sales charts in the sales conversation immediately.

#### React to the market quickly

New orders are directly transferred into your merchandise control system almost without any loss of time. Trends are recognized easily since numbers are always up to date.

#### Increase your productivity

Get rid of uncomfortable and error producing double entries of orders. With MobileSales your order is created only once and included in your system immediately.

#### More flexibility for your field staff

Whether show room, fair or your customer's — with MobileSales you can place and transfer orders anywhere at any time in just a few seconds.
